

Date: April 14, 2026

Time: 8:00 AM - 9:00 AM

Location: Study Room 2320

Objective: Move on to the coding/user interface of the calculator

Team Members Present: Chase, Courtney, Eian, Isaiah, Jason, Taryn

Meeting Log Written By: Courtney

Task Completion:

- Breakdown physical coding tasks, assign modules to individuals

Brainstorm Session:

- Who will complete what module during the coding of the calculator?
- Understanding the layout of the software architecture

Roles:

- **Project Lead:** Chase
- **Project Assistant:** Taryn
- **Administrator:** Isaiah
- **Administrator Assistant:** Courtney
- **Technical Lead:** Jason
- **Data Administrator:** Eian

Tasks Performed:

- **Chase:** Learning how to connect Qt to the GitHub, dividing coding tasks for group
- **Courtney:** Writing meeting log, dividing coding tasks for group
- **Eian:** Dividing coding tasks for group
- **Isaiah:** Dividing coding tasks for group
- **Jason:** Learning how to connect Qt to the GitHub, dividing coding tasks for group
- **Taryn:** Dividing coding tasks for group

General Notes:

- Beginning the design process of the Qt user interface
- Discussing how to connect the Qt to the GitHub for collaborative work

Follow-Up Actions:

- **Chase:** Finalizing Qt UI for the primary display page
- **Courtney:**
- **Eian:** Creating the derivative UI for the history display page
- **Isaiah:**
- **Jason:** Continuing development on backend
- **Taryn:**
